They directly address caregivers and through the use of diagrams, charts, examples, and stories help caregivers to explain to loved ones the progression of the disease; show loved ones what they can still do and enjoy; show family members and others that caregiving is a team effort and cannot be the responsibility of one person; show how persons with dementia can be exploited or abused; and help caregivers plan for the Next Step after caregiving. Bestselling Series. Connie Kudlacek. The description of the shift in family constellations and dynamics is very good. Elba Stewart marked it as to-read Apr 06, Although this book is written for a lay audience, medical professionals, nursing discussion of caregiving styles is very useful. Read a Sample Chapter.
