The acronychal events of superior planets and stars will be added. As a result of this projection, we also provide an ecliptic latitude of the apogee, which will be of importance if declinations are used. For the axes and houses, we compute the points where the horizon or the house lines intersect with the sidereal plane of the zodiac, not with the ecliptic of date.

Select the orbs and the active planets using the "Transits" and "Orbs" tabs, u
The first stellium is in my third house I think of the third house as a surrogate Gemini while the outer therefore maybe less super-major-important stellium is not all in one house but split between eighth and ninth. Turns out he's a Gemini cusp May 21 who self-reports having started out Gemini, switching to Taurus and back to Gemini. Planets in Signs and Houses removed from Tables
