We argue that in spite of obvious interrelations with power resources and potentials, exceptionalism is not necessarily a great or super power phenomenon per se. The ideal types differ with regard to denoting either an exemplary or a missionary approach to world politics.

Each week, our editors select the one author and one book they believe to be most important. The Chinese are by and large in possession of the greater portion of the North East Frontier Agency and are poised to overrun Chushul in Ladakh. This book opens up a new vista in the study of international relations, while simultaneously enriching our understanding of foreign policies of two world powers. For Kennedy, the decision was not whether to help, but
