According to such arguments, the problem with Marxist and neoclassical approaches alike is that they fail to recognize the independent logic of social, cultural, and political processes and consequently produce an inaccurate image of capitalist development as an effective colonization of human life by the market. This *The Logic of Money* one of those books that even if you don't completely agree with Ferguson's analysis it will really make you step back and take a look to honestly evaluate his argument. This is the crux of the argument in favour of a monetary system based on sound money. Based on what evidence? Trivia About *Golden Rule: The New* features frequently added.
