How these changes lead to increased inflammation and heart disease is an important area of research as it can have broader implications for the population at large. All of those people were vital to our mission to inform, engage and David Waters Journal the greater Memphis community. Hsue, the types of CVD occurring in HIV have shifted over the years from pericardial effusion and dilated cardiomyopathy to conditions such as atherosclerosis, arrhythmic complications, and heart failure.

As a service to our authors and readers, this journal provides supporting information. Our results document in dogs a female sex advantage for achieving exceptional longevity and show that lifetime ovary exposure, a factor not previously evaluated in women, is associated with exceptional longevity. Seema S.

Little progress, however, has been made to elucidate the mechanisms of sex differences. References Related Information. Technical support issues arising from supporting information other than missing files should be addressed to the authors.
